

Launching in October 2011

Global Health Watch 3

An Alternative World Health Report

The Global Health Watch is designed to **seek answers** to why so little progress is being made in promoting health across the world and also to **articulate solutions**. It proposes an **alternate vision of health located in a vision of equity, rights and empowerment**. It is a collaborative civil society initiative, co-ordinated by the **Peoples Health Movement, Medact, Medicos International, Health Action International and Third World Network**. The Global Health Watch is contributed to by researchers, academics and activists from across the globe. **The third edition of the GHW, being published by ZED Books, will be available in October, 2011. The Global Launch shall take place in Rio de Janeiro, Brazil, in the third week of October, 2011.**

GHW 3 has the following broad sections:

- ✚ Analysis of the global political and economic architecture, within which are located the decisions and choices that impact on health.
- ✚ View of current issues and debates on health systems.
- ✚ Beyond Health Care – a discussion on different determinants of health
- ✚ The Watching Section – a scrutiny of global processes and institutions that are crucially important for health and health care in the globe.
- ✚ Proposals for alternatives and stories of success and resistance as exemplars of actions that have contributed to better health

GHW 3 - Contents

You Can Make a Difference!

Support the Global Health Watch

We call upon all progressive health and development movements and NGOs to disseminate the evidence and analysis in GHW3. **We invite you to consider launching the GHW 3 in your region. For this purpose 'launch kits' will be available by early October, 2011.** Find out more by visiting: www.ghwatch.org or e-mail asengupta@phmovement.org
